Class of Electrical License Requested**	
Class A - General Electrical Contractor	
Class B - Journeyman Electrical Contractor	
Class C - Maintenance Electrical Contractor	

**See below for detailed description of each Class of License.

Classes of Electrical License and Type of Work Authorized:

Class A - General Electrical Contractor - A General Electrical Contractor License authorizes any person to do any type of residential, commercial or industrial electrical wiring, including without limitation the installation or alteration of electrical equipment for utilization of electricity supplied for light, heat or power.

Class B - Journeyman Electrical Contractor - A Journeyman Electrical Contractor License authorizes any person to do one and two family detached dwelling electrical work, sign installations and neon lighting, apartment buildings and air conditioning and heating limited to residential use.

Class C - Maintenance Electrical Contractor - A Maintenance Electrical Contractor License authorizes an individual employed by a single employer to maintain and/or repair, but not install, electrical conductors or equipment owned or otherwise under exclusive control of that employer.

Licensing Procedures:

- (A) All applicants for an Electrical License shall be at least eighteen (18) years of age and shall have had at least four years practical experience in the type of work authorized by the type of license sought, or shall have satisfactorily completed a course of study in the subject for which the license is sought, given by a recognized school, and have had at least one year of practical experience in addition thereto.
- (B) Each applicant for a license must pass an examination prior to issuance of such license. Candidates for the Class A - General Electrical Contractor License must pass the "Standard Master Electrician" reference NEC 2005 Edition examination administered by the International Code Council (ICC) or its designated testing agent. Candidates for Class B - Journeyman Electrical Contractor License must pass the "Standard Journeyman Electrician" examination administered by the ICC or its designated testing agent. Candidates for the Class C - Maintenance Electrical Contractor License must pass the "Standard Maintenance Electrician" examination administered by the ICC or its designated testing agent. The testing fee for all electrical licenses is \$100. *(Please go to the ICC web site at http://www2.iccsafe.org/contractor/dsp_state.cfm?state=IL and click on the 2008 Rantoul, Illinois Examination Information Bulletin to find out more information)*
- (C) Each applicant must pay a \$50 non-refundable application fee with the application for a license. This fee shall be applied as a fee toward the first year's license or portion thereof, if the applicant is successful in passing the above mentioned examination.
- (D) Each applicant must show proof of insurance applicable to the Class of Electrical License applied.

License Renewal:

The license fee for an annual renewal of **Class A** and **Class B** licenses shall be **\$50.00** and for **Class C** shall be **\$25.00**. All licenses shall expire on the 31st day of December of each year. Any license forfeited for non-payment of a renewal fee may be reinstated upon the payment of the annual renewal fee without re-examination, provided however, after the same has been delinquent for a period of one year, then the same shall be void and may not be renewed or reinstated.

PLEASE NOTE: All licenses/registrations are renewable and expire on the 31st day of December each year.
